

# The Hamilton Group

***New Factoring  
Facility***  
*provided by Hamilton*

***Financial  
Compliance  
Auditing Firm***

*Initial Funding*  
***\$85,000***

## ***Problem:***

The only limitation for this financial compliance and auditing firm was their access to capital. The firm had all the makings of success – experienced staff, an array of value added services and a solid customer-base. One obstacle remained. They needed cash to grow.

## ***Solution:***

After evaluating the firm's financial position, Hamilton structured a factoring solution that addressed the firm's cash flow needs. The president of the firm not only obtained a financing program that would allow her to cover growing operating expenses, she got it without having to mortgage her family's wealth with a personal guaranty.

*The Hamilton Group is a leader within the factoring industry offering flexible cash flow solutions for America's small and mid-sized business community.*
